

Subscription Form

For Already Implanted Microchips ONLY

A portion of all CAR subscription fees helps to support Australian Animal Welfare Organisations

This form can be used to register a microchip that has been previously implanted and not already registered with the Central Animal Records national database. Please note: The declaration must be completed by the owner before submission. The scanning information section must be completed for Victorian subscriptions. Incomplete forms will be returned to you. It is vital that all information on this form is provided. You will receive documentation from the Registry once details have been entered. The information provided on this form is used to ensure that the animal can quickly be returned to its owner. By submitting this form, you confirm that you have taken reasonable steps to verify that the above microchip number is correct. If you list the incorrect microchip number, your pet may not be returned to you if they were to go missing. There may also be penalties with your council if they ever scan your pet to check council registration. If this pet is already listed with Central Animal Records, we will need to initiate a change of ownership. The transfer can take up to 23 days as we are legally required to contact the previous owner for consent to transfer ownership. An additional \$5.00 will be applied to \$10.00 and \$20.00 service types if a change of ownership is required. Central Animal Records will only release your information to assist in reuniting you with your pet or if required by law. Councils have access to your owner and pet information on Central Animal Records and other national animal microchip registries and may use this information to assist with local council pet registrations and in administration of legislation. **DO NOT USE THIS FORM FOR MICROCHIP MIX-UPS OR MICROCHIP RE-CHIPS**

1. Animal Details

Fields marked with **!** are mandatory.

! Microchip Number:

! Breed:

Tick for Cross-Breed ☐ Specify Cross-Breed (optional):

! Species:

! Colour:

! Sex:
